Executive Summary

The present document constitutes the “Quarterly Project Reports template” of the BOOST project, funded by the European Union through the European Education and Culture Executive Agency (EACEA). The main objective of BOOST is to empower students and farmers with theoretical and practical knowledge and tools to become agripreneurs in Precision Agriculture.

The BOOST “Quarterly Project Reports template” aims to give an open view of every partner’s participation and to assure the smooth progression of the project. These reports will be filled periodically by each partner every 3 months and will be sent to the coordinator, AUTH.

The Quarterly Project Reports template is developed within the framework of WP6, “Quality Assurance (QA) and Evaluation”, and more specifically, it is the output of Task 6.2 “Internal evaluation”.
