Executive Summary

The present deliverable outlines the plans for the three surveys that will be used to identify and assess the training needs of researchers, students, and farmers in issues related to precision agriculture. For each one of these surveys, the deliverable describes its central objective(s), the research design that will be adopted, the instrument used, the data collection strategies, the criteria that will be used to select participants, and the techniques that will be employed to analyze qualitative and quantitative data. In addition, the deliverable delineates the allocation of activities per partner and the timeline of the work.
